

Prudential Zambia: Unified WhatsApp Engagement Transformation

Accelerating onboarding, collections, and renewals with Marichi WhatsApp Commerce Platform

From fragmented communications to a proactive, compliant engagement engine that accelerates policy onboarding, automates premium reminders, and surges renewal performance for Prudential Zambia.

Prudential Zambia: Fragmented Communications to Unified Engagement

Align Prudential Zambia's policyholders, agents, and prospects on a single, governed WhatsApp channel to reduce handoffs, accelerate onboarding, and improve collections and renewals.

Challenge Disjointed channels across agents and policyholders	Opportunity Centralize comms with WhatsApp for scale
Impact Faster onboarding and higher renewal rates	Risk Fragmented data and regulatory concerns without governance

Prudential Zambia — Pain Points Driving Transformation

Articulate Prudential Zambia's explicit pains and operational blockers, linking them to the need for automation and centralized visibility.

Lead generation and qualification

Manual, slow onboarding

Premium payment reminders

Inconsistent automation and collections

Policy onboarding

Fragmented workflows, document collection delays

Policy renewal campaigns

Ad-hoc outreach, low renewal rates
