

Prudential Zambia Transforms Customer Engagement with Marichi on WhatsApp

Unified, automated onboarding, renewals, and servicing at scale

Introducing Prudential Zambia's digital transformation: a centralized WhatsApp-driven engagement layer that accelerates onboarding, boosts renewal rates, and streamlines policy, payments, and claims communications with Marichi.

Prudential Zambia: Market Challenge and Engagement Gaps

Distributed communications across agents and channels create onboarding friction, slow premium collections, and fragmented servicing for Prudential Zambia.

Lead channels

Fragmented across WhatsApp, agents, CRM

Manual onboarding slows policy issuance

Automated reminders and renewals are inconsistent

Lack of centralized policy, payments, and claims view

Prudential Zambia: Current Pain Points Mapped to Gaps

Lead generation and qualification

Fragmented outreach across channels

Policy onboarding

Manual data capture slowing completion

Premium reminders

Inconsistent, delayed collections and renewals

Claims and servicing

Dispersed updates, low visibility for customers
